

volo-in

PROXIMITY READER

KSI2200000.300

DATASHEET

INTRODUCTION

volo-in is an proximity reader with NFC Technology. volo-in is a proximity reader for indoor with acoustic signal / light evidence, directly connected to the BUS Ksenia, the management of an entry / disarm the system intrusion Ksenia Security or, more generally, the activation / deactivation of Nr. 5 scenarios programmed in optical automation, using the approach of the mini-tags enabled. The device uses the standard slot RJ45 jack to be added to any provision of any supplier of devices housed in standard box 503. The device have a multi-color LED that can change colors: red, green, blue, yellow, white. For each of these colors you can be associated with a scenario freely programmable. It is very easy to activate a scenario: just bring a valid key to the reader, wait until the LED lights of the same color associated with the scenario, and remove the key.

To make up for unusual light conditions (overexposure), as well as to come in against the needs of users "Visually Impaired", you can also assign a different acoustic signal to all operations.

volo-in is equipped with a multi-tone buzzer to confirm the operations. To make it UNIVERSAL for all major plates, volo-in takes advantage from the standard square profile socket arising from the RJ45 Keystone socket used in a standard patch panel and other items of equipment.

As such, the RJ45 flush socket will fit a standard pattern wall plate normally designed for light switches from a number of manufacturers

TECHNICAL DATA

- **Power Supply:** 13.8 Vdc
- **Consumption:** 40mA
- **RFID:** ISO 14443 (A+B) @ 13.56MHz
- **Dimensions:** 127x43x17 mm

PROGRAMMING

volo-in can be connected to the 4-wires KS-BUS and can be programmed directly from the Control Panel.

HOW TO ORDER

KSI220002.300 - volo-in

ACCESSORIES

KSI7600000.000 - Mini-Tag in black color with metal key-holder ring.

PARTS INCLUDED

1 volo-in proximity reader
1 Quick Installation Guide IT/EN
2 Fischer screws, diameter 5mm
2 mini-TAG Ksenia

DATASHEET

ENVIRONMENT PROTECTION

volo-in has been designed and manufactured with the following features to reduce environmental impact:

- PVC-free
- Halogen-free laminates and printed circuits unleaded
- low absorption
- Packing made for the most part with recycled fibers and materials from renewable sources
